EDUCATION

University of Florida

Bachelor of Science in Computer Science

- **GPA:** 3.92/4.00
- **Relevant Coursework:** Programming Fundamentals 1/2, Applications of Discrete Structures, Data Structures and Algorithms

Gainesville, FL

August 2024 – May 2028

Google UX Design Professional Certificate

Comprehensive UX Design/Research Training

Online / Coursera

March 2025 – October 2025

EXPERIENCE

UI/UX Designer

January 2025 – Present

Gator User Design

Gainesville, FL

- Delivered research-driven websites for on-campus clients with 4,200+ combined members by gathering insights and applying user-centered design (UCD) principles.
- Designed growth-focused experiences and intuitive user flows that guided prospective members from initial awareness to active engagement, resulting in a 500% increase in membership post-deployment.
- Conducted survey and generative user research to identify user needs, define key functionality, inform design decisions, and optimize key user flows.
- Translated research insights into 25+ high-fidelity screens and a Figma prototype featuring interactive components.
- Worked closely with cross-functional teams including project managers and student developers, requiring appropriate scope control and ability to design considering varying implementation constraints.

PROJECTS

Atrium - Hackathon Project | *Figma, React, TailwindCSS, Supabase, PostgreSQL*

January 2026 – Present

- Designed sitemap, user interface, and user flows in Figma, facilitating developer handoff for a cross-functional team under time constraints.
- Designed React components that integrated with Supabase queries, enabling real-time data updates and reducing backend integration friction.
- Translated a concept into a demo-ready front-end interface in 36 hours, prioritizing core flows and usability under tight deadlines.

Portfolio Web App | *Figma, React, TailwindCSS, Node.js*

March 2025 – Present

- Designed UI system in Figma, including screens, components, spacing rules, and a consistent visual layout for varying screen sizes.
- Developed portfolio using React and TailwindCSS, translating Figma designs into reusable components.
- Built responsive layouts to showcase UX case studies, technical work, and previous experiences.

LEADERSHIP

First Year Product Design Team Lead

January 2026 – Present

Gator User Design

Gainesville, FL

- Facilitated twice-weekly meetings for a 6-member team, overseeing the end-to-end Product Design lifecycle and prototyping of an original app within a 5-week timeline.
- Created structured Figma project shell to streamline the 5-week design cycle, focusing on tutorials, a chronological structure, and emphasis on UI/UX best practices.
- Standardized 6 curriculum modules into Figma templates to streamline the 5-week design sprint, ensuring all 6 team members met weekly milestones without sacrificing design quality.

Co-President

September 2023 – May 2024

Academy of Information Technology Club

Miami Beach, FL

- Fostered digital media education and career readiness to on-campus members using guest speakers, career fairs, and information sessions.
- Coordinated with club sponsor to assess feasibility of potential events and facilitated communication with school leadership.
- Ensured compliance with school club guidelines and standards, maintaining relationship with faculty advisors and sponsor.

TECHNICAL SKILLS

Languages: JavaScript, C++, Python, HTML/CSS

Development: React, Next.js, Node.js, WordPress, Vercel, Git

Design: Figma, FigJam, TailwindCSS, Material Design 3, shadcn/ui, Adobe Photoshop, Wireframing, Prototyping, Design Systems, User Flows, Information Architecture

Research: User Research, Usability Testing, Personas, Journey Mapping, A/B Testing, Competitive Audit, Surveys
